Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/14/2010 has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The outstanding rejection has been withdrawn since the applied reference fails to teach or suggest a chemical reaction wherein the at least one product is different than the at least one chemical reactant and the fluororous compound. In this regard, an updated search failed to uncover a reference that teaches or suggest the claimed reaction, namely, US Publication No. 20050015936 to Eckert et al., which was cited earlier, fails to teach or suggest changing temperature, adjusting solvent, or adding an additive in order to increase the amount of fluororous compound absorbed on the fluororous domain of the solid adsorbant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
